

Cancer Cell Death Therapy

Congress CCDT 2017

From Wednesday 10 to Friday 12 May 2017

PROGRAM

Wednesday 10 May 2017:

11h00	Opening of the Palace gates Arrival of organizers	
12h00	Welcome attendees Registration, distribution of badges and documentation Installation of posters by authors	↳ Hall Surcouf ↳ Vauban

14h00 - 18h00	Session 1. Canonical cell death and resistance <i>Chairpersons: O Micheau (Dijon) & P Juin (Nantes)</i>
----------------------	---

14h00- 15h00	Keynote: Douglas Green (St. Jude Research Hospital, Memphis, USA) <i>"To the edge of necroptosis and back"</i>	↳ Maupertuis
15h00- 15h35	Harald Wajant (Univ. of Wuerzburg, Würzburg, Germany) <i>"TNFR2 and Fn14 as modifiers of death receptor signaling"</i>	↳ Maupertuis
15h35- 16h10	Olivier Micheau (Dijon, France) <i>"Death receptors for cancer therapy the pros and cons"</i>	↳ Maupertuis
16h10- 16h40	Coffee break	↳ Rotonde Surcouf
16h40- 17h40	Keynote: Henning Walczak (UCL, London, UK) <i>"Death receptors and ubiquitin in cell death, inflammation and cancer"</i>	↳ Maupertuis
19h00	Cocktail party	↳ Hall Surcouf
22h00	End of Cocktail party	

Thursday 11 may 2017

8h00	Opening of the Palace gates	↳ Hall Surcouf
------	------------------------------------	----------------

8h30 - 11h50	Session 2. Necroptosis, Senescence, Metabolism, autophagy and resistance <i>Chairpersons: C Brenner (Paris), JE Ricci (Nice) & N Andrieu-Abbadie (Toulouse)</i>
---------------------	---

8h30 – 9h30	Keynote: Peter Vandenabeele (University of Ghent, Ghent, Belgium) <i>"Targeting necrotic cell death modalities in cancer"</i>	↳ Maupertuis
9h30- 10h05	Jean Christophe Marine (KU Leuven, Leuven, Belgium) <i>"Overcoming resistance to targeted cancer therapy"</i>	↳ Maupertuis
10h05- 10h30	Coffee break	↳ Hall Surcouf
10h30- 11h05	Michelangelo Campanella (University of London, UK) <i>"Hidden Mitochondrial Pathways of Cell Death Evasion"</i>	↳ Maupertuis

11h05- 11h50	3 selected talks (10 min + 5 min)	↳ Maupertuis
--------------	--	--------------

11h05- 11h20 - **G. Ichim, Lyon** "Mitochondria are dispensable for the autophagic flux"

11h20- 11h35 - **A.K. Cotte, Dijon** "Lysophosphatidylcholine acyltransferase 2 - mediated lipid droplet production supports colorectal cancer chemoresistance"

11h35- 11h50 - **E. Lafont, London** "The Linear Ubiquitin Chain Assembly Complex regulates TRAIL-induced gene activation and cell death"

11h50- 13h15	Lunch	↳ Hall Surcouf
--------------	--------------	----------------

13h15 - 14h00	Poster Session I + Meet the editors	↳ Vauban
----------------------	--	----------

14h00 - 18h30	Session 3. ER stress and resistance <i>Chairpersons: O Coqueret (Angers), S Manié (Lyon)</i>
----------------------	--

14h00- 14h35	Costas Koumenis (UPenn, Philadelphia, USA)	↳ Maupertuis
--------------	---	--------------

14h35- 15h10	<i>"The UPR as an anti-tumor target: Lessons from animal models and functional genetic screens"</i> Fabio Martinon (Université de Lausanne, Lausanne, Switzerland)	↳ Maupertuis
15h10- 15h40	<i>"Mechanisms regulating IRE1 expression and function in cancer"</i> Coffee break	↳ Hall Surcouf

15h40- 16h10	Selected talks (10 min + 5 min)	↳ Maupertuis
15h40- 15h55	- M. Deckert, Nice "Targeting the proteasome-associated deubiquitinating enzyme USP14 induces melanoma cell death and overcomes resistance to MAPK-targeting therapies"	
15h55- 16h10	- J. Obacz, Rennes "IRE1 activation contributes to GBM aggressiveness by remodeling tumor stromal cells"	

16h10- 16h45	Patrizia Agostinis (KU Leuven, Leuven, Belgium) <i>"ER stress and immunogenic cell death in cancer immunotherapy"</i>	↳ Maupertuis
16h45- 17h20	Claudio Hetz (U Chile, Santiago, Chile) <i>"TMBIM family of proteins: ancestral regulators of cell death"</i>	↳ Maupertuis

17h20 - 19h00	Poster Session I + Meet the editors	↳ Vauban
19h00	- Special Event - Dinner in a Corsair Frigate (Etoile du Roy, St Malo) -	

Friday 12 may 2017 (Clinical Day)

8h00	Opening of the Palace gates Arrival of organizers	↳ Hall Surcouf
-------------	--	----------------

8h30 - 11h50	Session 4. Immune response and resistance <i>Chairpersons: F Rieux-Laucat (Paris) & B Ségui (Toulouse)</i>	
---------------------	--	--

8h30- 9h05	Keynote: Seamus Martin (Trinity College, Dublin, Ireland) <i>"Death Receptor-induced inflammatory signaling and cancer"</i>	↳ Maupertuis
9h05- 9h40	François Ghiringhelli (CLCC Leclerc, Dijon, France) <i>"How to combine cytotoxic chemotherapy and checkpoint inhibitors?"</i>	↳ Maupertuis
9h40- 10h10	Coffee break	↳ Hall Surcouf
10h10- 10h45	Jérôme Galon (Cordeliers Research Center, Paris, France) <i>"From Immunoscore to the immunoediting in human cancer"</i>	↳ Maupertuis

10h45- 11h30	Selected Talks (10 min + 5 min)	↳ Maupertuis
10h45- 11h00	- M. Bruchard, Dijon "The receptor NLRP3 is a transcriptional regulator of TH2 differentiation"	
11h00- 11h15	- A. Poissonnier, Rennes "New drugs disrupt the PLC γ 1/CD95 interaction: original therapeutic approaches to treat lupus"	
11h15- 11h30	- A. Hennino, Lyon " β ig-h3 disrupts anti-tumoral T-cell response in pancreatic cancer"	

11h30 - 11h45	Bristol-Myers Squibb session: Christophe Calvet <i>"Biomarkers and Immunotherapy"</i>	↳ Maupertuis
----------------------	---	--------------

11h45 - 12h30	poster Session II + Meet the Editors	↳ Vauban
12h30 - 14h00	Lunch	↳ Hall Surcouf

14h00 - 17h30	Session 5. Clinical trials <i>Chairpersons: H Léna (Rennes) & J Edeline (Rennes)</i>	
----------------------	--	--

14h30- 15h05	Carmen Garrido (UMR 866, Dijon, France) <i>"Deciphering tumor HSP70-exosomes as cancer dissemination markers: ExoDiag Clinical study "</i>	↳ Maupertuis
15h05- 15h35	Coffee break	↳ Hall Surcouf
15h35- 16h10	Thomas Bachelot (CLCC Lyon, Lyon, France) <i>"Overcoming hormone resistance in metastatic Breast cancer: mTOR and CDK inhibitors"</i>	↳ Maupertuis
16h10- 17h10	Keynote: Caroline Robert (IGR, Paris, France) <i>"Treatment of metastatic mélanoma: Evolution or Revolution?"</i>	↳ Maupertuis
17h10-17h30	CCDT Awards and congress closure	↳ Vauban

17h30	End of Congress and Closing the Palace gates	
--------------	---	--
